How to get the best from your Val Morgan Account Manager

At briefing please share with us: Target audience Campaign timing Creative duration Markets Budget Campaign objectives

Other media channels being considered
Role of media
How the campaign will be measured
What has worked for the client in the past
Relevant background on the category & brand
Any consumer insights that will help us respond

Next steps

After briefing we will develop a proposal outlining the recommended cinema strategy. This will include supporting research and case studies, forecasted audience delivery, movie information, campaign weights, media and production costs and the billing breakdown. Cinema has limited availability and all proposals are subject to availability until the time of booking. To book a campaign we require a signed contract. Once the signed contract is received your Val Morgan Account Manager will confirm your booking.

Production

Once a campaign is booked our production team will contact the creative agency directly. Lead time for supplying creative is ten days to allow file testing and distribution to cinema sites.

Don't forget to remind the creative agency to clear talent rights for cinema. This is best done as early as possible in the campaign planning process.

Managing your campaign

Before the campaign begins your Account Manager will discuss the movie titles scheduled for release throughout the campaign with you. Through our CineTAM audience measurement platform we provide planned audience forecasts against your campaign target. We track audience delivery on a weekly basis and optimise scheduling to meet your campaign requirements.

Post campaign reporting

We provide full post analysis at the end of campaign.
